

CLOVER SAFE #44

RIDING ON TOWED TRAILERS

*Photograph Courtesy of San Mateo
County 4-H Program*

Falling off a moving trailer can be a painful experience that results in a bruise, laceration, broken bone, or other more serious injury. By taking precautions and following common sense rules, persons can avoid falling off a moving trailer and enjoy the experience of participating in a parade, taking a hay ride, or traveling cross country on a field trip.

For additional information about safely riding on towed trailers, go to the Clover Safe note at: <http://ucanr.org/cloversafe>.

Clover Safe Notes are prepared by the UC ANR Office of Environmental Health & Safety, in support of the Statewide 4-H Youth Development Program.
