

According to information from the Electrical Safety Foundation International, every year electrical accidents cause approximately 165,000 electrical fires, 900 deaths, and 7,000 injuries. Electrical accidents can be prevented by understanding how electricity works and recognizing potential hazards.

For additional information about basic electrical safety, go to the Clover Safe note at: <http://ucanr.org/cloversafe>.

Clover Safe Notes are prepared by the UC ANR Office of Environmental Health & Safety, in support of the Statewide 4-H Youth Development Program.
