

CLOVER SAFE #64

GENERAL TRACTOR SAFETY

According to information available from the National Institute for Occupational Safety and Health, tractor overturns caused an average of 101 fatalities between 1992 and 2005.

For additional information about general tractor safety, go to the Clover Safe note at: <http://ucanr.org/cloversafe>.

Clover Safe Notes are prepared by the UC ANR Office of Environmental Health & Safety, in support of the Statewide 4-H Youth Development Program.
